Any other suggestions/ observations, if any-

The course work/training programme has been organized in a very methodical manner and with good facilities. Such programme should be organized frequently as more young research scholars / professionals can interact with experts. One small suggestion is that field trip duration should be more and can be conducted hard rock set up also.

10.	Overall grading of the process of training											✓
11.	Your recommendation to your peers/colleagues for the training Programme											✓

Any other suggestions/ observations, if any-

The whole training programme was a nice amalgamation of good teaching, excellent lectures and motivating talks from the demonstrating faculties. Lab-sessions were also very concise and useful for modern geoscientific approaches. Also, it was a good platform for interacting with other researchers from different fields.

I would like to thank of the organizers of the workshop for conducting such programmes to train young researchers of the country.
My special thanks to Prof. Subir Sarkar for being so as there so friendly and generous which makes this workshop more memorable.
