I would like to thank all the organizing faculty for their endless efforts for the successful accomplishment of this workshop. This would be very helpful for my further research work. The workshop was very knowledgeable with detailed explanation regarding the topics. The only thing that was lacking as per my concern was a quite detailed explanation during practical session. (Demonstration by running sample J. Rest of things was excellent. Thanking You.

It was a well organized programme. In near future it will be highly appreciated if organizers can able to do it so with fewer number of participants. So that, the interaction towards the appreciation can be much more fruitful to the individual participating in the event.
