Any other suggestions/ observations, if any- Overall program was very planned and all topics were very useful to nanotechnology research. Lab visits were very good experience in case of highly sophisticated instruments. One suggestion would be: Please provide complete program details before hand so that participants coming from far station, can plan accordingly.

Any other suggestions/ observations, if any-

All sessions of the program was knowledgeable. I am very thankful to the Banasthali Vidyapith for this training program. For my small suggestions I can say that deep discussion on the topic is necessary for understanding the actual phenomena taking place within any behavior of materials. More focused should be towards research work is necessary.
However all above are my personal opinion.

The Training programme on Experimental methods for Nanotechnology Research was very helpfull to understand the theory of instruments and their training to me.

It will be more beneficial for my future work.

I would like to thank DST, India for providing the infrastructure facilities to the Host institute. I also thankfull to Banasthli Vidhyapeeth for smooth and very good support.
