The training program was very helpful in understanding the principle and applications of the instrument. A range of instruments were covered. Also, the technicians, volunteers and teachers gave a very personal hands-on experience w.r.t to handling of instruments. Only if some microbial samples could be added to the samples shown.

Very much relevant ~~technique~~ for plant samples.
 Lucid explanations and doubt clearance sessions. Good hands-on sessions.
 Details of discussed topics (~~at~~, ~~for~~ any printed material/ soft copy) should have been provided.
 Overall very good experience.

One suggestion for future batches, if possible to us as well, the reading material if shared would be an add-on to enhance the understanding. Besides, the duration of workshop could be extended to 21 days or so to enhance the effective learning further.
