Any other suggestions/ observations, if any-

⇒ The way of Teaching methodology has to be Improved (ex: has to be start from the working principle and need more hands on trainings). Also has to start from the basics about the Instrument/ behind science.

⇒ Overall the Workshop organized well & meticulously planned.

⇒ I would like to express gratitude to the organizers for given me this valuable opportunity/ Need more programme in the conduct.

Feedback

I Ankita Dutta, research scolar of Department of Biotechnology, NBU would like to extend a warm thank you for organizing such an amazing training session. Not only the session was very informative but the training material, hands on practical experiences were also very interesting. What I enjoyed most was the interactive session after each of the class where the teachers and the associated persons were very much helpful to give an practical insight of each instrumentation they discussed about.

I would like to express my sincere gratitude to our Vice-chancellor Sir and for conducting such a great collaborative programme which will help in near future. This type of events not only help us to get information about the instrumentation facilities, but also is very helpful to collaborate with researches from other universities also. I also like to mention thank our development officer Palash Paul Sir for the smooth conduction of this overall session. & I & once again thank everyone who were a part of the seminar for making it a great learning experience for all of us. & Being a researcher I look forward to attend such kind of seminar and workshops in near future.

Thanks and Regards
Ankita Dutta

FEEDBACK   FOR   STUTI

The seven days STUTI (Various Sophisticated scientific Instruments and Techniques) hands - on Training program was a very informative, productive and excellent training for me. It covered all the various kind of sophisticated scientific instruments such as Nuclear Magnetic Resonance spectrometer (NMR), Scanning Electron Microscope (SEM), Fourier - Transform Infrared Spectroscopy (FTIR) and so on, which are very essential for any research work.

I hope to be a part of such prestigious training again in the upcoming future.

Thanks and Regards,
Kriti Rai (RS),
Dept. of Food Technology,

Any other suggestions/ observations, if any-

Every year these type of programmes for training on various sophisticated instruments should be conducted, so that ~~scholars~~ scholars & faculty members could get an in-depth experience on the use of such instruments which will be very beneficial for research curriculum as well as in the overall development of the bright minds.
