presentation has attracted to this programme)

Any other suggestions/ observations, if any- Overall the programme was excellent.

However, I want to highlight an imp concern. A few lectures were irrelevant! The presentations were not at all related to the titles of the topics. For example: Dr. Manjoo A. Dhis, from K.U did not at all talk about how ^(Name of the Participant) HPLC can be used to characterize plant based materials - not even a single slide! Similarly, Dr. Monika Koul also presented totally irrelevant slides and talk as well. *

Any other suggestions/ observations, if any-

Suggestions: → ① Guest on the inaugural can be an expert and deliver a lecture ② Site seeing should be added in the training.

Observations: → ① The expert lectures (most) were of low standard. The experts were not from the field (as per training program) ② The hands-on sessions were not done with practical demos. Just the machines and softwares were shown.

3.	Overall grading of the faculty members conducting the training												✓
4.	How do you rate the overall training methodology											✓	
5.	How far the field visit is relevant and related to your research study	✓											
6.	Usefulness of this training in your current role												✓
7.	Usefulness of this training in future work/job you may handle												✓
8.	How far have you benefitted from interaction with the fellow participants of the training											✓	
9.	How far the course material supplied relevant and related to the training curriculum					✓							
10.	Overall grading of the process of training											✓	
11.	Your recommendation to your peers/ colleagues for the training Programme											✓	

Any other suggestions/ observations, if any-

During hands on learning sessions, the concerned resource persons should have the practical samples and demonstrate the complete procedure rather than discussing the study about results.

In addition, relevant course material should be made available to participants on the very first day of training.
