Any other suggestions/ observations, if any-

→ Experimental result analysis part for variety of techniques (Eg. XRD, SEM) could bring more laurels to these such programmes.

→ Limiting the scope to either 2 (or) 3 techniques and amore training could further help the participants.

→ 120 min. duration for a single lecture may be replanned.

→ Overall, the programme is very knowledgeble & practical journey. Certainly excellent.

Everything specifically related to training material & quality was good. The only thing, most of the participants felt not good was, that there should be some transport facility from the place of stay to training hall especially in Lunch time (to & fro) due to so much hectic schedule & hot weather.
