Any other suggestions/ observations, if any-

First of all, we struggled with the accommodations, since we got non-AC rooms and it was difficult to stay there for 7 days. Then, it would be better if we had had got the chance to operate HPTEC by ourselves, since the scanner was not there. All the resource persons tried their level best to make this programme well but it would be better if we had got to do the experiments by ourselves, rather than just the demonstration by them.

Any other suggestions/ observations, if any-

- I suggest workshop/training program should be maximum 3-4 day, because 7 days, I felt was ~~too long~~ ^{Theory} too long.
- Also the duration of lectures can be reduced to focus more on hands on training.
- Food quality was good but little variety would have been appreciated
- G, F rating corrected by myself
- Especially I was looking forward for HPLC, soxhlet extraction Tech, for this I suggest ~~use~~ select 1 plant sample do the extraction as we have done & use sample for TLC, HPLC, HPLC for complete understanding.

The program is good provides us good knowledge about instruments & how to handle them with skillfull techniques. Evenh Some of the instruments are very useful like HPLC, FT-IR & UV-visible spectrophotometer. Overall, the training programme is good & you can arrange many more programmes like this. Thank you.

10.	Overall grading of the process of training					✓					
11.	Your recommendation to your peers/colleagues for the training Programme							✓			

Any other suggestions/ observations, if any-

- 1) ~~As~~ it is a "Hands on training Program" it will be good if you let participants to operate or work more ~~in~~ practical
 - 2) As some instruments were not in working condition (HPTLC) it would be better if you check the instrument before practical session, The duration of practical session should be more and everyone should get hand-on training, and do the experiment
 - 3) There should be some varieties in the meal provided, as we are not localite. So, it is tough hard for us to eat same food for 7 days.
- Deepali.

Any other suggestions/ observations, if any-

It would be have been better if they provide us subject experts, rather the Resear some of the instruments like HPTLC they do not have scanner so we don't get chance to handel it, the distance from Guest house to other Department was large so there must be some transport facility.
