I have gained a lot of hands on experience on X-Ray and chromatography techniques, but must have one or two analytical techniques more like (ICP-MS), (AAS), and nuclear techniques. I have also characterized 2 samples in SAIF/ICIL. It was well done at this facility.

Any other suggestions/ observations, if any- Organisers were very helpful. Schedule of the programme was managed very well. Only things that was lacking little bit was hands on training could be more better. Like each Student was not able operate the instrument. (Although it was not possible for all as per the time) Still little bit schedule could be done such that 4-5 techniques can be divided among students.

I would like to suggest the following:

1. Decrease the no. of participants to 25 maximum.
2. Groups should be smaller.
3. Lesser techniques with more time is feasible.
4. Conduct such programmes on regular basis.
