Any other suggestions/ observations, if any- firstly, I would like to thank STUTI & the organizing committee for such a wonderful training. In addition, I would like to suggest that such type of training would frequently be organized in this university (as a host), especially at the time when there is flowering or fruiting season here in the university. Also, I would request that STUTI have trainings based on statistical software for analyzing data, that will surely help student for better analysis through good statistical software.
